## **Language Work in Elementary Schools**

**By M. A. Leiper, Western Kentucky State Normal School**

For the practical methods of teaching the English language, the author presents a definite program of action to cover the work of every grade. Both for reference and for daily desk use, the teacher will find this volume a source of information and inspiration.

## **Public Education in the South**

**By Edgar Wallace Knight, University of North Carolina**

The discussion of present-day problems of education in the South by Dr. Knight makes available the *first* general survey by an authority in this subject. The book is not so much concerned with educational theories as with *educational progress*. It has become a work of national significance.
